

LOS Tune-up!™

OVERVIEW

Our exclusive focus is on the regulatory compliance issues affecting residential mortgage loan originations. We are actively engaged in monitoring the mortgage industry's ever-changing laws and regulations.

Through our guidance, both management and compliance personnel can be assured that they comply with the regulations, rules, and laws governing the origination of mortgage loan products.

LOS TUNE-UP!™

The Pioneer in Compliance Tune-ups!

LOS Tune-up!™

The Loan Origination System ("LOS") is the central processing unit of the loan flow process, usually from point of sale to secondary market or securitization. Ideally, the LOS should be designed to increase consistency and reduce technology costs throughout each phase of the mortgage, home equity, consumer and business loan origination process.

Thus, from point-of-sale to secondary marketing; from document and task tracking to automated underwriting; from application to processing; from closing to electronic document transmission and automated uploading to loan servicing systems, the LOS should enable you to originate multiple types of loans – across multiple verticals and channels – with speed and efficiency.

Lenders Compliance Group is the first & only risk management firm to offer the LOS Tune-up!™

Features
